

I am for REJECTION of petition 04-160!!!!!! It is ridiculous to think that I would not be able to choose exactly what I want to listen to because someone is petitioning a company that is causing financial competition for them. I don't feel anyone should be able to regulate what I want to pay to hear. That should be my choice and my choice only!!! I appreciate the weather and traffic channels as an addition to my subscription fee on XM radio and it is well worth it.  
Thanks,

BW
